

Import conditions for the Charolais Association

Association	Charolais Society of Australia Ltd
Semen	<p>7.2.1 A member may import semen from a sire registered in an approved overseas Herd Book with the object of approval for registration with the Society of any resultant progeny, provided the following items are supplied to the Society prior to registration of progeny of such sires in the Herd book:</p> <p>7.2.2 Copy of the bull's pedigree for the four successive generations prior to and including the subject bull;</p> <p>7.2.3 A SNP DNA profile at greater or equal to 100K panel from a Society approved DNA testing facility ;</p> <p>7.2.4 The results of a Myophosphorylase Deficiency test from a Society approved DNA testing facility;</p> <p>7.2.5 Genomic data verifying both sire and dam from an approved testing facility.</p> <p>7.2.6 A profile colour photograph of the bull, Council reserves the right to request further images of the bull;</p> <p>7.2.7 Payment of the fee for International Sire application; and</p> <p>7.2.8 The bull must be duly registered with the Society.</p> <p>7.2.9 The Society reserves the right to reject any sire that does not comply with the CSA Regulations and/or Breed Standards.</p>
Embryos	<p>8.4.1 The donor dam must be registered with the Charolais Society of the country of origin and have a GGP-LD SNP DNA profile established;</p> <p>8.4.2 The Donor dam must be registered in the Charolais Society of Australia Herd Book and pay applicable registration fees.</p> <p>8.4.3 The donor dam must be recorded as a donor dam with the Charolais Society of Australia with any applicable fees payable;</p> <p>8.4.4 The sire of an imported embryo must be registered as an Approved International Sire in Australia;</p>
Live Animals	<p>12.1 All imported Charolais cattle must comply with the Herd Book requirements as set out in these regulations.</p> <p>12.2 Imported Charolais must be registered with an International Herdbook recognised by the Charolais Society of Australia Ltd.</p> <p>12.3 Imported Charolais cattle shall be registered with the Society within 120 days of landing in Australia, or thereafter be so registered only with the consent of Council, at the prescribed fee current at that time.</p> <p>12.4 Coat colour of any imported Charolais must meet the approval of the Council.</p> <p>12.5 Imported Charolais must have Genomic data verifying both sire and dam from an approved testing facility.</p>

[*These conditions are only for the registration of Charolais in this herdbook and not the Biosecurity import conditions of this country. Intending purchasers should consult the importation protocol of their own country. These Regulation [By-Law] extracts are tabled as a guide and it is strongly recommended to consult with your Charolais Association as they are subject to change.
